Email

jatinrastogi81@gmail.com

Address

Gandhi ground, Badaun

Education

2020-2024

B.Tech(CSE)

Bennett University

Current CGPA 9.3

Internship

GPCSSI'22 (Gurugram Police Cyber security summer internship)

Tech Stack

- C++
- Java
- Python
- HTML, CSS, JavaScript
- PHP
- Flutter

Communication

English

Hindi

Working Fields

- Eager to work in the field of Research. Exactly wanted to learn how the research done, Learning and experiencing work within the REST APIs.
- As a Cyber security enthusiast, can handle the OS Linux as other environments.
- Solving algorithms all day to have experience on how the algorithm works. Solving data structure and algorithm in C++ always helps me in real life too solve daily need problems to which I wanted to implement in my projects.
- As a subject read Operating system and Digital design as well as object oriented programming in C++ and learned many things from it,

Projects

Anti-Fraud Antivirus

May22-present

- An antivirus which uses machine learning algorithms as a support to block the fraud transactions.
- Idea, prototype, documentation as well as use-case diagrams have been completed

Real Estate Price Prediction using Machine Learning Algorithms

Oct 2021-Dec 2021

- Testing the algorithms on a database and cleaning the data using Data Science concepts.
- Prediction using Linear Regression tested through GridsearchCv .
- Accuracy of having 80% and considering a good predicting model on testing.

Tours and Travel Management System

Apr 2021-Aug2021

- Management System based on java and database managed through MYSQL.
- Use Swing to create GUI and used payment Gateway.
